PROFESSIONAL SUMMARY:

Aspiring Software Engineer with a strong academic foundation and hands on experience in developing and testing APIs. Adept at using modern technologies to create efficient and scalable solutions. Eager to contribute skills in software development and problem solving to a dynamic team.

EDUCATION:

Bachelor of Computer Applications in AI - CGPA: 8.8/10

Sri Venkateshwara University, Tirupati, Andhra Pradesh

June 2023 - April 2026

Courses: DSA, System Design, DBMS, Software Engineering, Cloud Computing, AI & ML

TECHNICAL SKILLS:

Programming Languages: Python, Java

Database: MySQL

Cloud & DevOps: AWS(EC2, S3, IAM, Lambda), Jenkins, Docker, Git, Github

Web Technologies: Django, HTML, CSS, JavaScript, Bootstrap

Core Fundamentals: Operating System, OOP, SDLC, Agile Methodology

PROJECTS:

Cloud-Based Task Orchestrator | *Python, Django, MySQL, Docker, AWS (EC2 & S3)*

- **Backend Architecture:** Developed a robust RESTful API using Django REST Framework to handle complex user data and task scheduling.
- **Database Optimization:** Designed a relational schema in MySQL with optimized indexing, reducing query response time by 15%.
- **Cloud Deployment:** Containerized the application using Docker and deployed it on an AWS EC2 instance, ensuring 99% uptime during testing.
- **File Storage:** Integrated AWS S3 for secure, scalable storage of user-uploaded media and documents.
- **Security & Auth:** Implemented JWT (JSON Web Tokens) for secure user authentication and managed permissions using Django's built-in logic.

Scalable Exam Result Delivery Platform | *FastAPI, MySQL, Redis, Docker, AWS EC2*

- Built a cloud-hosted exam result platform to handle high student traffic during result announcements and reduce server overload.
- Developed REST APIs using FastAPI and SQLAlchemy for result retrieval and bulk CSV-based result ingestion.
- Implemented Redis caching using the Cache-Aside pattern, significantly reducing database load for repeated result lookups.
- Containerized the application stack (FastAPI, MySQL, Redis) using Docker and Docker Compose for reproducible deployments.
- Deployed the platform on AWS EC2, configured Linux servers, Docker networking, persistent storage, and cloud security groups.
- Designed cache invalidation and data persistence mechanisms to ensure consistency and reliability during result updates.

SOFT SKILLS:

- Strong Problem Solving and Logical Thinking
- Team Collaboration and Communication
- Time Management and Task Prioritization

ACHIEVEMENTS:

- **SGF Kabaddi Player:** Represented District at the School Games Federation (SGF) Kabaddi tournaments (2020), demonstrating disciplined training, competitive grit, and team strategy.
- **College Annual Day Host:** Hosted the College Annual Day event, managing live anchoring and public speaking.
